

3M Car Care Market Center University

AeroTect is pleased to announce that we will be hosting our next Car Care Market Center University early in 2011.

Come out and learn about new products, installation tips, best practices, and learn ideas on how to grow your business and increase your bottom line.

New to Paint Protection Film and Vehicle Wraps? Learn the advantages of being aligned with 3M's Car Care Market Center.

Did you make it to our last university? We will be featuring some new products and new ideas. There will also be giveaways/prizes, as well as CCMC University specials.

Please RSVP for our next university by calling us at: (866) 388-2376 or by e-mailing to: info@aerotect.net

January 20th @ 9:00 am
1935 McKinley Ave unit F.
La Verne, CA 91750

Lunch will be provided

See the reverse side for more information.

Scotchprint & OEM opportunities

Exciting news was unveiled at SEMA this year, and it could mean big profits for your business. 3M announced that they have aligned with OEM's to provide custom graphics packages through their dealerships. With this market segment growing rapidly Dealerships need installers, and through this program, the dealerships are turning to 3M Scotchprint endorsed installers.

Visit www.scotchprint.com and register to learn and earn your level 1 endorsement. The level 1 course takes about 20 minutes to complete. Once done, call us to see how to earn your level 2 endorsement.

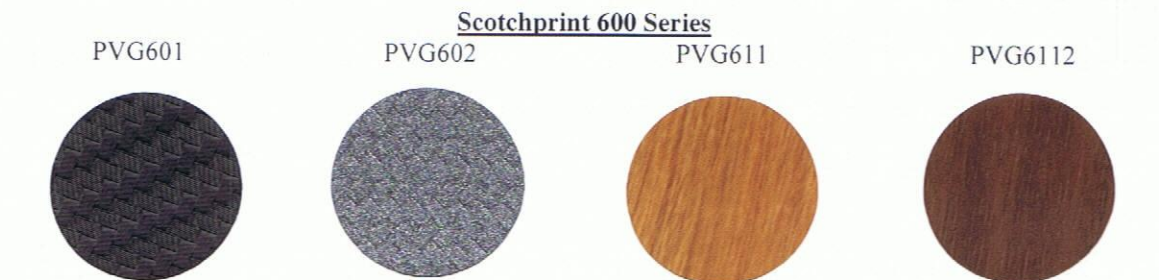

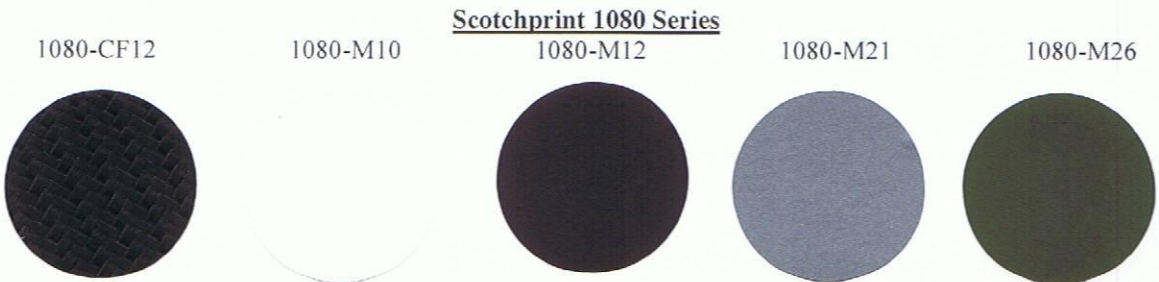

Take full advantage of this opportunity to build new relationships with dealerships, and strengthen your relationships with current customers.

Scotchprint 1080 & 600 Series

For those already familiar with DiNoc and Scotchprint 600, AeroTect now offers 2 colors of wood grain. Scotchprint 600 series is a nicely textured 8 mil thick vinyl with Comply Air Release, available 48" wide.

3M has added the 1080 series wrapping vinyl to the Scotchprint line. 1080 is a 3.5 mil thick cast vinyl with Control Tack technology that is easy to apply and provides an amazing look for your customers looking for vehicle enhancement and personalization.

1080 is currently available in the colors below, and will soon be available in several solid and brushed-aluminum colors. Available in a 60" wide format, so full hoods are no problem! 1080 also features a 1 year horizontal and 3 year vertical warranty.

AeroTect also carries all colors of DiNoc Carbon Fiber. You can see the available colors at: www.aerotectfilms.com
Need a bigger sample to show your customers? You can order as little as one foot with AeroTect (866) 388-2376

Digital Designs Web Release II

An Important Notice For Current Invisible Patterns Users!

At SEMA we unveiled Digital Designs Web Release II which features enhanced creating and editing tools not available in the previous version. We will demonstrate how to use these new features and even how to design your own pieces at our upcoming CCMC University.

New software purchases run \$400. Upgrades are available for a limited time for Invisible Patterns users for a onetime upgrade fee of \$50, and users currently on Digital Designs I will be able to upgrade at no cost.

Invisible Patterns Users must upgrade by January 31st to be eligible for the discount.

3M Digital Designs Web Release II will run on a cut code system similar to the Invisible Patterns software, so there will be no monthly fees or per cut charges for using the software. Invisible Patterns is no longer updating its software, and cut codes are no longer available.

Car Care Market Center University Information.

A quick look at items that will be covered at our upcoming CCMC University on January 20th:

3M Advantages – Learn why and how the 3M brand can help you and your business
